# GASTRIC AID

## Ulcers and equine gastritis treatment

**Gastric Aid** – Natural food complement made of Grapefruit seeds and Aloe Vera extracts.

**Gastric Aid** effectively fights against the consequences of stress on the animal.

- Corrective action: ulcers, colic and gastritis healing, gastric acid level reducing during a stressed period for horses.
- Preventive action: at a time of work, competition, travels, the 10ml Gastric Aid daily administration allows the control of ulcer and gastritis formation.
- Administration: 10 ml (0.0176pt) dose
- Not doping agent, tested in laboratories.

Packaging: 500ml (0.88pt), Ref.GA1

## D.I.P.

### Disinfectant for farming installation

Natural, with grapefruit seeds extract

**D.I.P.** cleans and disinfects all farming installations, stables, cowsheds...

**D.I.P.** contains a natural agent which adheres perfectly to the walls and the floor and keeps being efficient for about one month.

**D.I.P.** works as a deodorant, by the elimination of the horrible ammonia smells came from animals' urine, and keeps its action in the presence of organic materials.

**D.I.P.** is used in a one twentieth current dilution, which allows making about sixty stalls with 1L.

Apply by spraying or atomizing once in a month.

Packaging: 1L (1.76pt) bottle, Ref. DP1

5L (8.8pt) barrel, Ref. DP2
